## Istamps/EA Premier Stamps (oil based ink)

**NB. CHECK THE LABEL TO SEE WHICH INK IS NEEDED TO REFILL THE STAMP**

Be sure to keep the coverplate on the stamp at all times when it is not in use to prevent ink evaporation

Use ink specified on label (istamp ink, shiny eminent ink or shiny eminent speed ink)

Separate the handle from the stamp

Add ink into the inking ports at either end of the base

3 drops very small eg 14mm circle

10 drops small eg 17x57mm

20 drops medium eg 30x52mm

30 drops large eg 48x100mm

Allow ink to soak in for 2 hours before adding additional ink if needed.

Do not overink!

## Multisurface stamps:

**CHECK THE STAMP LABEL TO SEE WHICH INK WAS USED TO MAKE THE STAMP**

use ultifast or shiny non porous ink (spirit based ink)

Be sure to keep the coverplate on the stamp at all times when it is not in use to prevent ink evaporation - check the stamp each month and reink if needed

Re-ink with ultifast or shiny non porous ink only (check the label to see which ink you need to use)

Separate the handle from the stamp

Add ink into the inking ports at either end of the base

3 drops very small eg 14mm circle

10 drops small eg 17x57mm

20 drops medium eg 30x52mm

"Pump" the handle a few times after adding the ink to help the ink spread more evenly over the ink pad

Sit the stamp on a flat surface and allow ink to soak in for 2 hours before adding additional ink if needed.

Do not overink!

Ultifast ink (6ml bottle): \$19.80

Shiny non porous ink (15ml bottle): \$18.70
